

How do I know what events are happening?

Use Safari or Google Chrome to view the Google Calendar on InsideND > MBA Student Services tab

How do I add calendars to my personal Google Calendar?

Step 1: Log in to Google Apps (google.nd.edu) > click on the mosaic squares  in the upper-right corner and select **Calendar** from the drop-down menu

Step 2: Click on the drop-down arrow next to **Other calendars** > **Add by URL** > Copy/paste the URL from the list below into the box prompt

Important note: If you can't gain access to one of these calendars...

Multiple log-ins are probably the culprit. Some Google products and mobile versions of Google products do not support the use of multiple accounts in the same web browser. Instead, they *default to the first account that you signed in to* from your current browser. To fix this issue,

1. Go to google.nd.edu > click the drop-down arrow next to your profile picture in the upper-right corner > click **Sign out**
2. Go to google.nd.edu again > log in with your netid > re-access the calendar
